

Victorian Guide and Scout Water

sailing

The VGWAC owns its own fleet of sailing craft. With a combination of Corsairs, Pacers and Mirrors, there is bound to be a yacht for you.

Open day pleasure sailing, supervised by our experienced coxswains, is carried out in our fleet of Corsair yachts. These hold up to six people, depending on size.

The VGSWAC also offers AYF approved sail courses. Our experienced staff make sure you learn in a safe and controlled environment.

Victorian Guide and Scout Water Activities Centre

The Victorian Guide and Scout Water Activities Center is located on the Sandringham Foreshore. The Centre boasts great facilities with a fleet of sailing craft suitable for pleasure sailing as well as training. Paddleboards, canoes and beach activities provide on-going entertainment for a safe and fun day on the sand.

Seri usly Safe

Safety at the VGSWAC is taken seriously.

All water activities are supervised by our experienced staff. The sailing boats are staffed by Centre approved skippers and all water craft are kept under the watchful eye of at least one patrol boat, which is in radio contact with the beach crews and our fully staffed radio base, located on the top floor of the Centre.

All participants are required to wear a properly fitted PFD (lifejacket).

A fully stocked First Aid facility is available for any minor incidents.

Remember: The safety of our children requires adult supervision.

All groups must provide suitable supervision for all activities except sailing.

The Grounds

The VGSWAC buildings include a large indoor multi-purpose hall, kitchen facilities and change rooms. These make the Centre an ideal location not just for a fun day at the beach but also for that special meeting place or conference.

A BBQ can be hired to feed the hungry hoards!

The Centre also has a great outdoor grassed area for a picnic out of the wind. And all this is just a 20 metre walk from the beach.
