

GIRL GUIDES, IN YOUR POCKET!

Outdoors Weekly Challenge

Make a tracking path through your house or garden for someone in your house to follow. I wonder what surprise you could hide for them at the end of the trail...

We'd love to see some photos of the creative ways you use household items to make tracking symbols!

TRACKING SIGNS
Basic symbols the whole family can learn together!

	This way Still on track		Turn here Follow the arrow
	Wrong way Go a different way		Gone home End of the trail
	Over obstacle (two obstacles)		Split up (2 left, 4 right)
	Message here A box and arrow		Water this way (eg stream to cross)

Leaving signs made from natural materials for others to follow is a fabulous outdoor activity - and one day this knowledge could save your life!
