

GIRL GUIDES, IN YOUR POCKET!

Extra Program Ideas:

Here are some ideas you can use in your Virtual Unit Meetings.

Imaginary cooking

In your Virtual Meetings, everyone has one minute to go to their pantry/fridge and find the most interesting ingredient they have. When everyone is back on screen, everyone shares something they could make with that ingredient (i.e. a meal, a recipe, their own creation).

Extension:

Whatever the first Guide shares, the second Guide has to build on – For example, a Guide has a vanilla bean so they say they would make ice cream, and the next Guide has bacon so they suggest bacon pancakes with vanilla ice cream, and so on. What sort of meal can you create after all of the Guides contribute?

Extension:

Try and brainstorm one meal/recipe you could make that uses everyone's ingredients.

Bring a pet night

We all know that the Guides in our Unit always want to hold a 'bring a pet night'! What better time than now?! Share your pets from home on the screen. You don't have to worry about transporting pets, and cats and dogs in the same room, or schedule times for animals to arrive.

For girls who don't have a pet at home – be inventive – maybe you have a teddy you can transform into a pet, draw/create your ideal pet, or create a pet rock!
