

SEGMENT INSTRUCTIONS

How to create a 'Garden Bug'

Materials:

- Sticks
- Cardboard tube (e.g. a toilet paper roll)
- Cardboard (e.g. a cereal box)
- Scissors
- Pencil
- Hot glue gun + glue
- [Template](#)
- Paint for decorating

Directions:

1. Go on a walk to collect some sticks and leaves.
2. Get the cardboard tube and squeeze the ends together.
3. Use a pencil to trace the insect body parts from the [template](#) onto the cardboard.
4. Cut out the pieces.
5. Use the hot glue gun (with an adult's supervision) to glue the body together.
6. Attach the wings to the body.
7. Glue the body onto the cardboard tube.
8. Use your collected sticks as the 'arms' and 'legs' for your bug, and put one inside each of the holes in the ends of the cardboard tube. Secure the arms and legs with glue.
9. Decorate them with paint.
10. Now you can enjoy your bugs!
