

Peace Dove

You will need:

- 1 large paper plate
- 2 small paper plates
- Yellow paper
- Sticky eyes (or a pen to draw some eyes on)
- String

Instructions:

1. Fold the large paper plate in half.
2. Make a hole through the centre, and thread through some string. Secure with a knot. This is the body of your dove.
3. Cut one of the small paper plates in half. Glue one half to each side of the body to form the wings, varying the angle a little to give the bird dimension.
4. To make a tail, cut a segment from the second paper plate and glue inside the folded body.
5. Glue on a beak cut from yellow paper.
6. Add the sticky eyes.
