

## We have a CHALLENGE for you!

### Design an Obstacle Course for a Pet

Why should humans get to have all the fun?!

Think about your chosen pet's abilities, size, and its range of motion before you get started.

Design an obstacle course that your pet will be able to navigate through. You may wish to include treats to encourage them to explore the course. Your pet's course will be bigger or smaller depending on their size!

Can you train your pet to navigate through the course faster? Without making mistakes? Remember to reward their good work with food or affection.
