

Homemade Soap

What you need:

- Foamy hand wash dispenser – recycled if possible
- Measuring spoons
- Jug of water
- Pure Castile liquid soap
- Vegetable glycerine
- Your favourite essential oil

Instructions:

1. Open the lid of your dispenser and fill it $\frac{3}{4}$ full with water.
2. Add 2 tablespoons of Castile liquid soap.
3. Add 1 teaspoon of vegetable glycerine.
4. Add 6-8 drops of essential oil.
5. Screw the lid back on, nice and tight.
6. Shake your mixture gently up and down.
7. Test it out! It should be nice and foamy.
