

SEGMENT INSTRUCTIONS

Party Popper

What you need:

- Paper cup
- Pencil
- Balloons
- Tape
- Scissors
- Paper confetti, pom poms, feathers, etc.

Instructions:

1. Turn your paper cup upside down. Using a pencil, poke a hole in the centre of the bottom of your cup. Use your thumb to make the hole larger.
2. Take your balloon. Blow it up, then deflate it. Now it's deflated, tie a knot at the end of the balloon. Cut across the top of the balloon (the opposite end to the knot).
3. Stretch your balloon over the base of your cup, making sure that the knot in the balloon is over the hole you made in the bottom of the cup.
4. Using the tape, stick down the edge of the balloon to the cup.
5. Load up your cup with paper confetti, pom poms, feathers, etc.
6. Holding your cup with the bottom facing downwards, pull down on the balloon by the knot and release quickly to pop some party magic!
