

Origami Box

Feel inspired to do some origami of your own? Check out these instructions for making an origami box, adapted from <https://origami.me/box/>

Step 1: Place your sheet of paper white side up. Fold the paper in half horizontally, create a crease, and unfold.

Step 2: Fold the paper in half vertically, create a crease, and unfold.

Step 3: Fold the corner of the paper to the centre. Do this for each of the four corners.

Step 4: Once all corners are folded in, rotate your paper so it's square again.

Step 5: Fold the top part of the paper along the dotted line to the centre.

Step 6: Fold the bottom part of the paper along the dotted line to the centre.

Step 7: Create a crease, and unfold.

Step 8: Fold along the left part of the paper along the dotted line, create a crease and then unfold.

Step 9: Fold along the right part of the paper along the dotted line, create a crease and then unfold.

Step 10: Unfold the top and bottom triangles of paper.

Step 11: Fold the right side of the model to the centre along the dotted line. Do the same with the left side.

Step 12: Slowly pull the paper open at the top, following the dotted lines. The creases you've made will help.

Step 13: Your paper should now look like this!

Step 14: Fold the flap of paper down to form the edge of the box. You will need to fold the top triangle up a little bit to fit along the bottom.

Step 15: Fold the other side like you did in steps 12, 13 & 14.

Step 16: Congratulations! You finished your box.
