

UNICORN BOOKMARKS

You will need:

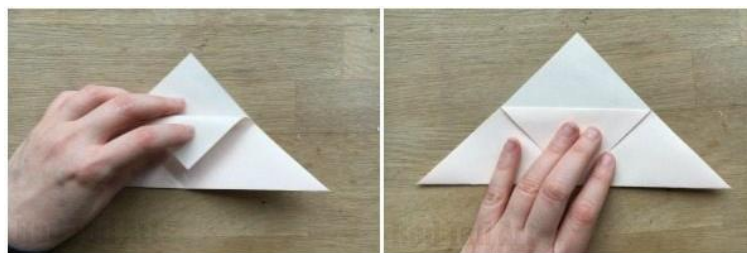

- White A4 paper
- Coloured pencils or pens
- Scissors
- Glue
- Yellow or gold paper (for unicorn horn)
- Extra paper to make leaves and flowers

Instructions:

1. To turn your A4 piece of paper into a square, fold your paper like the picture below. Cut off the excess rectangle. Keep the cut-off for later!

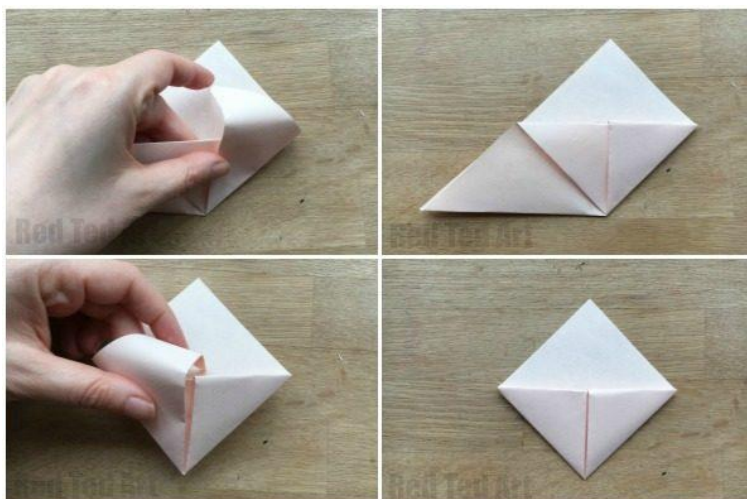

2. Keep your paper folded into a triangle, and keep the short point facing away from you (as above). Fold down the top triangle point to the bottom of the triangle. There will now be two smaller triangle shapes on either side of a diamond shape.

3. Fold the two corner triangles up towards the top of the diamond. This will create one big diamond. If you look into the centre of the shape, you will see a pocket.

4. Take the two triangle points that you folded up, and tuck these into the pocket. Once in place, flatten your bookmark.

5. Grab your pencils or pens, and draw your unicorn's eyes.
6. Cut your yellow or gold paper into a small triangle, and use glue to secure it onto the top of your bookmark.
7. Use glue to attach other decorations, like leaves and flowers.
8. Use your leftover white paper to make small triangles for the ears and a circle for the nose. Colour them in before sticking on with glue! Add a smile and nostrils to the nose, and draw on cheeks.
9. You now have an adorable corner bookmark to keep your page in your books!
