

## Penny Hike

### You will need:

- A coin!

### Safety First!

- Always look both ways before crossing the street.
- Don't penny hike alone, and make sure that a trusted adult knows where you're going and what you're doing.
- Follow COVID-19 restrictions and guidelines to keep everyone safe, including wearing a mask if appropriate and practicing social distancing.
- Bring a map, either on paper or on your smart phone, so that you can track where you are going and find your way home again!

### Instructions:

1. Choose your starting point, for example your house or your Guide Hall
2. At each intersection, decide which direction is HEADS and which is TAILS.
3. Flip your coin!
4. Whichever side your coin lands, walk in that direction.
5. Repeat for as long as you like – maybe until you get tired!
6. Head back to your starting point.
