

Camp Hair Care

Forgot your hair elastic? No problem! **Instructions for a pencil bun:**

1. Start by brushing your hair to remove all tangles.
2. Then gather all your hair to the middle-back of your head, like you would be a regular pony-tail.
3. Begin to twist your hair to form it into a bun-shape.

4. When you run out of hair to twist, take your pencil and push it in to the right side of your bun, angling the pencil towards your scalp.
5. Wave the pencil up and down, up and down – through the bun and out the far left side. This is what secures the bun in place.
6. Tuck in any loose ends, and you're done!

No hot water at camp? No problem! **Try dry shampoo:**

Always follow the instructions on the product. These will be slightly different for each brand.
