

## Paper Planes

### You will need:

- Paper (A4 works best)
- An area to fly your plane!

### How to make a FAST PLANE:

1. Fold the paper in half length-ways, and then unfold.

2. Fold two corners to the centre at one end.

3. Fold the points on the sides to the centre line.

4. Fold the sides to the middle on both sides again.

5. Fold the plane in half.

6. Fold the long lengths backwards at right angles to form the wings.

7. It is now ready to fly!

## How to make a BASIC PLANE:

1. Fold in half length-ways, and then unfold.

2. Fold two corners to the centre at one end, then fold back the sides.

3. And again to form the wings.

4. It is now ready to fly!

## How to make a HIGH WINGS plane:

1. Fold in half length-ways, then unfold.

2. Fold two corners to the centre at one end.

3. Fold back the sides to form the wings.

4. It is now ready to fly!
